# Standard ticket instructions

Open the relevant file in Adobe Reader (The A4 form is shown below for reference).

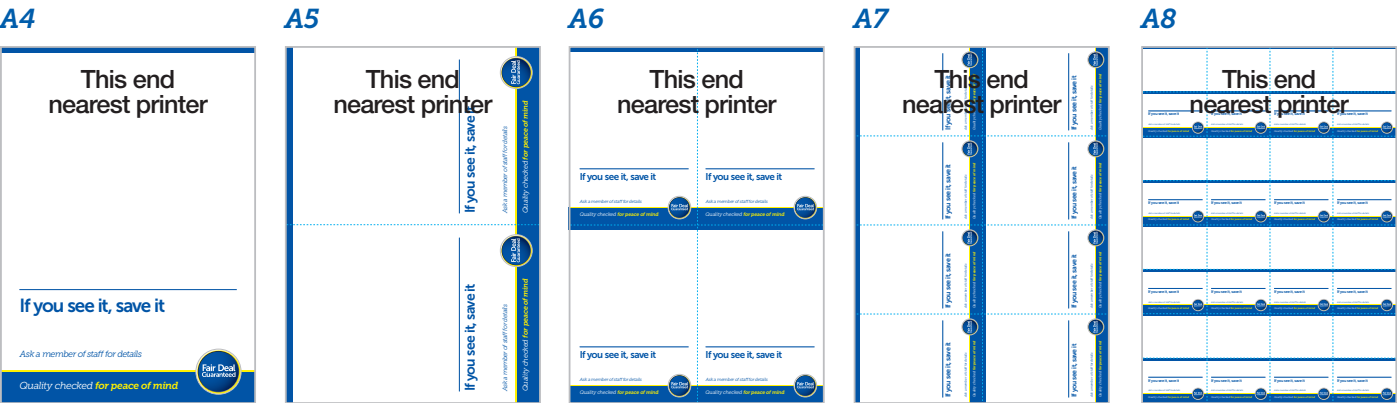

### To fill in the form:

1. Press the 'Tab' button'. This highlights the first form field, A: 'Brand Name'. Enter the Brand Name of the product.
2. Continue to tab through and enter the relevant info in this way:  
The form details are as follows:  
B: 'Product'  
C: 'Product Description'  
D: 'Price'  
E: 'Product Grade'  
This is a drop-down list. Click the arrow for the menu to appear. Select the relevant product Grade.  
F: 'Deposit' and 'Instalments'. These final 2 fields are automatically generated. No information needs to be entered by hand.

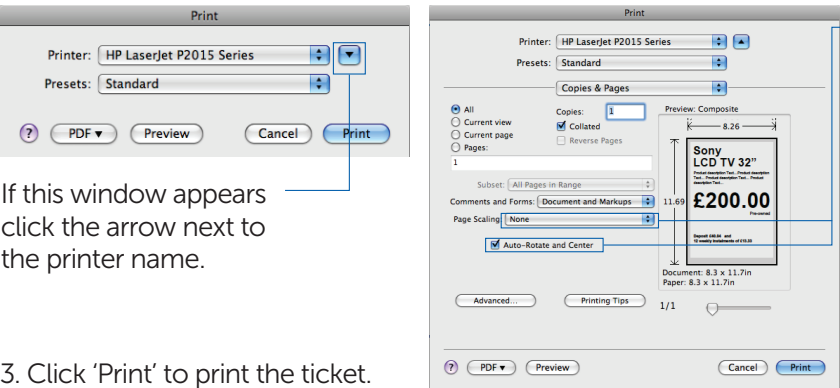

3. If you are using the A4 ticket template, the file can now be saved and printed.
4. For A5, A6, A7 and A8 ticket templates, continue to tab through, entering the relevant detail into each for field until you have filled in the number of tickets required.
5. Save the file.

### To Print the tickets:

1. Place the ticket facing upwards into the manual feed tray, following the diagrams below:

2. Click the printer icon at the top left of the window. One of the following pop-up window will appear:

If this window appears click the arrow next to the printer name.

3. Click 'Print' to print the ticket.

In this window, Make sure 'Page Scaling' is set to 'None' and that 'Auto-Rotate and Center' is checked.
